WHITE-PAPER

BabyBee

INTRODUCTION

"The **BabyBee** crypto meme community is an innovative fusion of technology and philanthropy, working tirelessly to make cryptocurrencies accessible to everyone and help those who need it most."

"**BabyBee** leverages Binance Smart Chain's cutting-edge technology to make cryptocurrencies accessible and efficient. With ultra-fast block times and low gas fees, the community can transact quickly and cost-effectively, contributing to the mass adoption of cryptocurrencies."

"**BabyBee Coin** is proof that crypto memes can go beyond fun to inspire nobler purposes. Created by fans of online memes, the community is helping to drive cryptocurrency adoption and making a difference in people's lives."

BabyBee raises the bar for memes by including solidarity actions in its initiatives.

With his innovative and inspiring approach, **BabyBee** is setting a new standard for the meme world, showing that it's possible to make a positive impact and do good while still having fun.

The more you use **BabyBee Coins**, the more you earn. With automatic distributions and a hyper-deflationary model, this innovative cryptocurrency is the right choice for anyone looking for a constantly growing portfolio.

Hyper-deflationary is an economic policy that seeks to reduce the money supply in circulation in an accelerated way, with the objective of increasing the value of a given currency. This is usually done by burning a percentage of the currency in circulation or automatically distributing a portion of the currency to all holders. With fewer units of currency in circulation, supply becomes scarcer, and consequently the individual value of each unit increases. This policy is commonly used in cryptocurrencies to encourage currency appreciation and reduce its volatility.

BabyBee is more than just a cryptocurrency project - it's a community initiative that aims to revolutionize the way people interact with digital money.

Unlike many other cryptocurrencies, **BabyBee** is a project that focuses on building a vibrant and collaborative community, where each participant has a voice and an active participation in building the future of the project.

OF THE LEGAL PART

BabyBee, including but not limited to the overall design, token, website, smart contracts and any applications ("**BabyBee**") as presented in this concept paper, is not a licensed, unlicensed or exempt financial or payment service of any kind and in any jurisdiction. Any terminology used in this **White-paper**, on the website or in the app is only a basic reference, without any effective or legal meaning of the same terms in a regulated and/or financial environment. **BabyBee** is a community driven project.

BabyBee smart contracts are open source, security audited, permanent and not modifiable in any way. The **BabyBee** token is strictly a meme utility token in all jurisdictions and is not and cannot be considered a "security" or regulated token of any kind. **BabyBee** is in no way e-money and/or fiat money, or an asset-backed stable-coin, whether global or limited in scope.

This **White-paper** by itself is not a contract or contractual agreement of any kind, nor is it an invitation, solicitation or offer to invest in **BabyBee** or acquire or use **BabyBee** Tokens in any way and with any expectation of profit therefrom.

Any **BabyBee** user represents and warrants that such user has received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this **White-paper** or the Site, and/or using any part or element of **BabyBee** (including the **BabyBee** token coin). User acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any type of blockchain and/or cryptographic system, token, swap platform or interface, including **BabyBee**, and further rejects any claim of any kind against any member of community directly or indirectly involved with **BabyBee**, for any damage suffered, including total loss. **BabyBee** will make several digital tools available on its website exclusively for the convenience of users. **BabyBee** is built on the Binance Smart Chain with lightning-fast block times and cheaper gas fees than Ethereum.

BabyBee is not a traditional investment and should not be treated as such. Participating in BabyBee can lead to significant losses, so please do your research before getting involved.

01 SUMMARY

BabyBee Big dream

Born in March 2023 **BabyBee** Coin is more than a cryptocurrency, it's a movement. We're combining a passion for fun with a mission to help those in need. With innovative digital solutions and a unique approach to cryptocurrency adoption, we are leading the way to a fairer and more equitable future.

BabyBee Swap

Inspired by the hit meme BabyDoge, **BabyBee** is ready to take the next step in its journey and launch its own Swap, offering services never seen before in the decentralized cryptocurrency market.

BabyBee Shop

BabyBee is poised to take the use of meme tokens to the next level by deploying a marketplace that will allow users to purchase physical and digital products using the token. With this initiative, **BabyBee** is redefining the concept of usefulness in cryptocurrency memes.

BabyBee NFTs

BabyBee is redefining the cryptocurrency market with its NFT marketplace project, which will allow users to create, sell and buy unique NFTs while contributing to charities and valuing **BabyBee Coin**.

BabyBee DAO

BabyBee is creating a new model of decentralized governance, where the community is responsible for deciding the rules, improvements and choosing charities to receive donations, demonstrating the true power of decentralization bringing true democracy to the world of cryptocurrencies.

02 VALUES

🔍 TRANSPARENCY

At **BabyBee**, we encourage open communication and believe that transparency and trust are key to maintaining a strong and cohesive community, ready to face any challenges that come along our journey.

✅ RELIABILITY

BabyBee understands that transparency is the key to building a trusted and secure community in the cryptocurrency market.
That's why we strive to maintain full transparency not only in our community and development, but also in our security efforts, ensuring the trust of our users.
BabyBee will adopt a posture of full transparency and security, performing third-party audits and protecting its core liquidity for 10 years.
Equality is a core value that we uphold in our community, as we believe that everyone deserves respect, dignity and equal opportunities.

👥 COMMUNITY

BabyBee values inclusion and diversity, looking to build a strong community where everyone can grow and express themselves freely.
In our community, there is no distinction made between gender, race or sexual orientation, everyone is welcome at **BabyBee** and treated with respect and dignity.
At **BabyBee**, we value decentralization in all aspects, including managing Telegram channels. Our team authorizes members to manage main channels in each country, while we allow other members to create and manage their own channels.

🔄 LONGEVITY

On **BabyBee's** journey, the community is our greatest ally. Together, we will be committed to promoting the long-term development of the ecosystem and making **BabyBee Coin** a useful and valuable token, while helping charities.

Binance Smart Chain (BSC) is a blockchain designed to deliver solidity-based smart contracts with speed and efficiency superior to other competing blockchains. With its decentralized exchanges offering extremely low fees and lightning-fast transactions, BSC has become a top choice for DeFi projects. Utilizing the BEP-20 token protocol developed by the team at Binance, BSC offers blocks with block speeds of just 5 seconds, making it faster than many other blockchains with block times of 1 minute. Comparative studies prove the efficiency and speed of the BSC.

Doge 1 Minute:
https://coinsutra.com/transaction-speeds/

Bep-20/BSC 5 Seconds:
https://trustwallet.com/blog/binance-smart-chain-in-numbers

There are several advantages to use the Binance Smart Chain, such as:

Blockchain designed with a focus on protecting users and developers alike, allowing everyone to have confidence that their data is safe and secure.

Binance Smart Chain enables fluid interaction between different blockchains, enabling an enhanced user experience in high-performance dApps.

Binance Smart Chain is fully EVM compliant, meaning it is capable of running all smart contracts and decentralized applications that were developed on Ethereum. In addition, BSC offers faster and cheaper transactions, allowing users to transact efficiently and cost-effectively.

Network governance is distributed on-chain, using the Proof of Stake Authority consensus, which is based on 21 validators to validate transactions and ensure a more decentralized and inclusive governance model.

Although BabyBee uses Binance Smart Chain's smart chain network, it is important to clarify that the network is decentralized and BabyBee has no control over the actions of users and validators on the network, therefore it is not responsible for their actions.

04 ECOSYSTEM

🌍 Powered by the Community

BabyBee is a vibrant and fun community that will be wholly owned by its community. We believe in inclusivity and value diverse perspectives to make **BabyBee** the best crypto community possible.
In addition, our mission is to help and support various charities, aiming to make a positive difference in the world.

📈 Instant Rewards

By holding the **BabyBee Coin** token in your wallet, you will be rewarded with a share of the 4% transaction fees that are distributed to existing holders with each transaction on the network, which increases the amount of **BabyBee Coin** tokens you own without having to carry out new transactions.

🔒 Liquidity and Development Fund Locked

To ensure the stability and security of the **BabyBee** ecosystem, core liquidity tokens are locked for 10 years. Additionally, 2% of all transaction fees are automatically added to the core liquidity, increasing market depth and making it easier to buy and sell **BabyBee**.

10% of **BabyBee's** total supply was allocated to the development of the project and distributed among ten wallets, each wallet having its funds locked for a determined period, unlocking according to the schedule below.

Wallet 01: unlocked one year after beginning of the project.
Wallet 02: unlocking six months after unlocking wallet 01.
The others unlocking after the other respecting the six-month period.

Here you can follow all the lockeds:

Liquidity: Informed on the opening date of liquidity at PancakeSwap

Here you can follow the ten locked wallets as well as the release schedule ➡ CLICK HERE

05 BABYBEE PROTOCOL

BabyBee takes a deflationary approach with three functions built into its contract: Distribution, Automatic Liquidity and Instant Burn. In addition, its main liquidity is blocked for 10 years and its reserve for at least one year, guaranteeing the security and stability of the ecosystem.

For every transaction on the **BabyBee** network, including swaps and transfers, a 15% fee is applied, which is distributed according to the following structure.

2% for project development

1% for marketing actions

2% for donations to charities elected by the community

1% are burned instantly

2% are automatically entered into the main liquidity locked for ten years

4% are distributed among all **BabyBee Coin** holders
*For holders with a minimum of 10.000.000 in Baby Bee Coin

Suply Total: 9.000.000.000.000.000
Suply for Sale, Liquidity and 50% Burn: 8.100.000.000.000.000
Suply Blocked For Development: 900.000.000.000.000
Blockchain: Binance Smart Chain
Contract: 0x803770ba98385E5B094DC31C7e02C4F38195F25F
Standard: BEP-20
Name: BabyBee Coin
Symbol: BabyBee

06 ROAD MAP BABYBEE

March 2023

BabyBee website launch
Issuance of BabyBee Coin
Blocking main liquidity for ten years
Blocking the ten development wallets
Start of swap at PanckeSwap

With 1,000 holders

Entry with listing request on CoinGecko and CoinMarketCap
waiver of contract

With 2,000 holders

Beginning of listing in several DEX
Opening of the DAO
First grant proposals

With 5,000 holders

Beginning of listing in several CEX
Certik audit request
First community proposals for project improvements

With 50,000 holders

Beginning of the implementation of the NFT environment
Beginning of the debate with the community to structure the BabyBee institute

With 500,000 holders

Beginning of the implementation of the BabyBee Swap
Entry with application for listing on Binance

With 1,000,000 holders

Beginning of the implementation of the BabyBee Shop
Implementations of various digital services with crypto assets

BabyBee

"Join our community right now and participate with us!"

*"There are those who give generously,
and sees his riches increase;
others withhold what they should give,
and fall into poverty. The generous will prosper;
who gives relief to others,
relief will receive"*
Proverbs 11:24-25
